

Model change for Pascal pump

Dear valued customer,

Pascal has launched a new pump model **X series** from July 2013.

It consists of an improved air drive mechanism which ensures more reliable pumping action than ever before, also it is mounting interchangeable with model **HPX** and the boosting ratio remains same.

The details are as follows.

1. Previous model

Pascal pump model **HPX**

2. New model no.

Example: **X6308U-D** (previous model: **HPX6308U-D**)

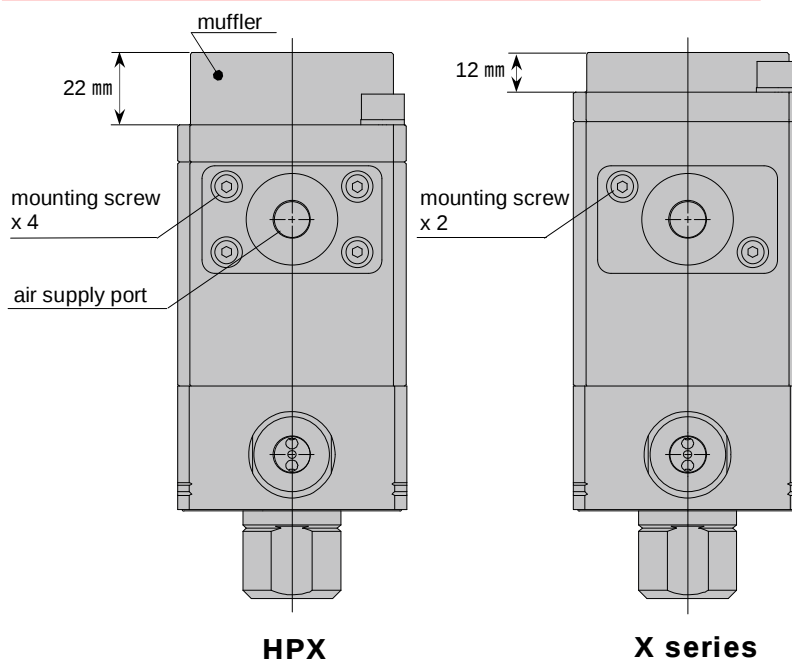

3. Timing of change

Any orders submitted from 1st of July 2013. **HPX** production will be discontinued.

4. Appearance

Paint color : black

There are a few changes. Refer to the sketch shown below.
(Muffler height, mounting screw on air supply port flange)

Should you have any questions, please contact customer service center.

Sincerely,

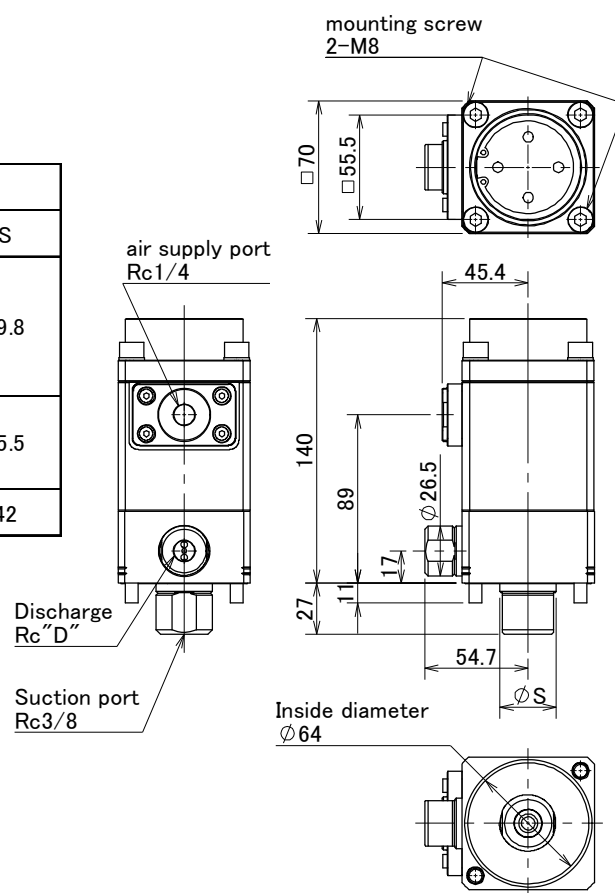

Pascal Corporation

MODEL		DWG.NO.
HPX / X series	Comparison figure (Pascal pump)	4HGYA29400

model	boosting ratio	Discharge Flow (note)	dimension	
			D	S
HPX6306	97	1.1 L/min	Rc1/4	29.8
HPX6308	58	1.5 L/min		
HPX6310	37	2.3 L/min		
HPX6312	24	3.2 L/min	Rc3/8	35.5
HPX6316	15	3.8 L/min		
HPX6320	9.2	4.4 L/min		

(note) at no load / air pressure : at 0.5MPa

X series X series are mounting interchangeable with model HPX and the boosting ratio remains same.

model	boosting ratio	Discharge Flow (note)	dimension	
			D	S
X6306	97	0.8 L/min	Rc1/4	29.8
X6308	58	1.3 L/min		
X6310	37	2.0 L/min		
X6312	24	2.8 L/min	Rc3/8	35.5
X6316	15	3.6 L/min		
X6320	9.2	4.3 L/min		

(note) at no load / air pressure : at 0.5MPa
