SHANK W/NON-RETURN VALVES

Product group: 170 Product number: 174656

UCT-500 combination torch with non-return valves and hose sockets for 6mm hoses.

Product information

All welding and cutting attachments will fit the shank. Attached with non-return valves, this will prevent reverse flow in the gas hoses.

Alternatively, the FR-20 shank flashback arrestors can be used in place of non-return valves.

Features

- Simple and safe to use
- Versatile combination for gas cutting, brazing, welding or heating
- Lightweight

Benefits

- It balances well in the hand during welding and cutting operations
- Easy to use

Specification

General

Invent Hazard Material (IMO/IU) classification	NA
