

MICROSCAN®

Product Line: Handheld Series

New Addition: HS-21 and HS-41X

Microscan's new handheld imagers are ideal portable reading solutions for almost any 1D/2D symbol, with a compact and durable design to withstand multiple drops from 6' (1.8 m). Featuring dual field optics from the built-in MS-2D reader, these imagers reliably read both large 1D barcodes and high density 2D symbols. The HS-41X handheld includes our latest X-Mode decoding technology for direct part marks.

HS-21 2D Reader:

- 1D and 2D symbols
- Dual field optics for wide and high density fields
- IP54 rated protective enclosure
- "Good read" audible, vibrate, and green LED indicators
- USB 2.0 or RS-232
- Low power draw
- Optional stand for hand presentation

HS-41X DPM Reader:

- 1D and 2D symbols **PLUS DPM**
- Dual field optics for wide and high density fields
- IP54 rated protective enclosure
- "Good read" audible, vibrate, and green LED indicators
- USB 2.0 or RS-232
- Low power draw
- Optional stand for hand presentation
