TECHNICAL DATA SHEET

HOUGHTO-CLEAN® 503

Formerly SOLINE 10

SOLVENT BASED DEGREASER

HOUGHTO-CLEAN® 503 is a relatively slow evaporating high purity solvent cleaner..

Applications

HOUGHTO-CLEAN® 503 has been formulated for manual and immersion cleaning applications as an alternative to halogenated and other user and environmentally unacceptable solvent cleaners.

This product can also be used within equipment designed to use flammable solvents hot in a pseudo vapour degreasing process.

HOUGHTO-CLEAN® 503 has been formulated to remove low viscosity neat oils, greases, waxes and similar type soils from ferrous, non-ferrous metals. solvent resistant composites, plastics and elastomers.

Recommendation For Use

HOUGHTO-CLEAN® 503 should be used neat as supplied and generally applied at ambient temperatures. Apply the product by wipe, brush, non-atomising spray, immersion or low pressure flooding techniques.

For application at elevated temperatures, please consult with your Houghton technical representative.

Benefits

- High purity formulation for high levels of surface cleanliness
- High purity formulation for consistent evaporation properties
- Low odour for operator acceptance
- Multi substrate compatibility
- No flammable labelling for less restricted storage and usage

Health, Safety And Handling

Please consult the Safety Data Sheet (SDS) for information on storage, safe handling and disposal. The conditions or methods of handling, storage, use and disposal of the product are beyond our reasonable control - we assume no liability for any ineffectiveness of the product or any injury or damage, arising out of or in connection with these conditions.

Typical Physical Properties

PROPERTY	TYPICAL VALUE	UNIT
Appearance	Clear water white liquid	
Specific Gravity	0.77	
Flash Point	67°C
