10AL Aluminium Cylinders

Product offering

Calgaz has a range of three types of 10AL cylinders designed to meet your needs. The 10ALE and 10ALU are both approved for global use and vary only slightly in terms of height, appearance and weight. The 10ALR is our refillable cylinder version which again can only be supplied in the USA.

All cylinders have the universal C10 valve as standard and can filled with both non-reactive and reactive gases.
