PH PROBES

PH PROBES_ SPH-1- DJ 6M

Features

- Low maintenance sealed unit
- Gel filled reference cell
- BNC connection with Boot plastic Cover
- Cable length 6 meter
- Pellon Diaphragm high accuracy
- Double Junction

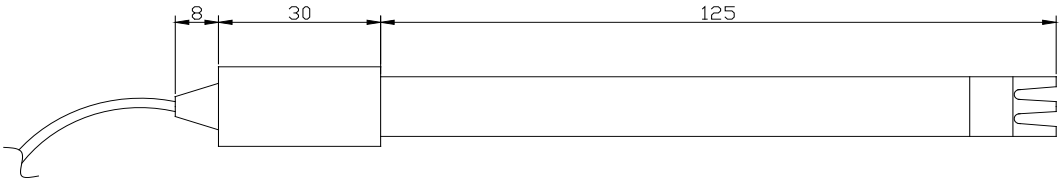

Field Application:

- General laboratory
- Drinking Water
- Swimming pools
- Water monitoring and control plan

Code: 9900105105

- Features:
  - Range: pH 2÷12
  - Temperature: 0÷60 °C
  - Pressure: 6 Bar
  - Trasparten plastic Body
  - **Double junction** with KCL Gel and **Pellon diaphragm**.
  - BLUE cup with **6 meters cable** size 3mm, BNC plug incluted with blue Boot cup.
  - Batch production with 4 number to indicate Week and Year production.
  - Single Package with neutral carton box.

Dimensions

Technical characteristics

pH Range:	2 ÷ 12
Min. Conductivity:	50 µS/cm
Temp. Range:	60° C
Pressure Range:	up to 6 bar
Body material:	Polycarbonate
Membrane material:	Glass
Diaphragm type:	Pellon
Mechanical Mounting:	Ø 12
Electrical Connection:	6 m cable + BNC (Blue BOOT Cup)
Reference:	GEL
Offset:	12 mV
Gain:	97% of theoretical or higher
Storage temperature	+2 ÷50 °C (**do not freeze**)
